PERSONAL PROFILE

Highly driven, motivated, and analytical data professional. Current participant in Tech Talent Academy's Data Academy programme learning Python fundamentals, including key data science libraries. I am also gaining a solid grounding in machine learning algorithms, relational database management (SQL), data visualisation/ business intelligence packages such as PowerBI, and R programming language. I am a keen and adaptable worker looking for entry level data science positions that will utilise this skillset.

SKILLS

Research and Analysis

- gathered feedback and analysed answers from a customer questionnaire to see if a Google product appealed to targeted users/customers
- designed a research method that probes into user experience with Google products

Organisation and planning:

- designed customised, daily lesson plans according to target students' needs and priorities
- Managing and prioritising personal workload (time-management) for consultancy projects

Critical thinking:

- designed and decided on research methodologies for market research projects
- recognise themes and interpret evidence in data

Communication and Presentation:

- actively listening to students and staff feedback and adapt accordingly
- present research findings to clients for consultancy projects

EDUCATION

TechTalent Academy, Data Science

November 2021 – February 2022

An intensive 14-week course, focused on the fundamentals of data science delivered through a combination of interactive group learning and home learning tasks. During the course I built strong skills in the manipulation of data using NumPy and Pandas whilst being able to visualise the data using Python libraries including matplotlib, Altair and other software packages such as Power BI.

UCL, M.A. in Lifelong Learning

August 2012 - August 2014

A joint-degree from : Aarhus University (Copenhagen, Denmark), Deusto University (Bilbao, Spain), Institute of Education, UCL (London, U.K.). My dissertation focusing on students experience using online learning platforms is currently under peer reviews for publication.

Central College (Australia), Diploma in Information Technology

July 1999 – July 2001

B.A. in Professional Communication, RMIT University (Australia)

January 1996 – May 1999

I majored in Print Journalism and completed my final year as an exchange student at University of Tennessee, U.S.A.
